LEAGUE IS A GREAT NEED

Europe Anxious for America's Aid.

Congressman Says this Nation Must be Peacemaker for Many Peoples.

After Visit Abroad is Sure Reservation Programme will be Accepted.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Dec. 25.—Without the aid of the United States Europe will be in a state of turmoil for years to come, Representative Britten of Chicago believes as a result of his observations abroad.

Mr. Britten toured Europe several months and visited every capital on the continent and talked with leading men of the various nations.

"I am convinced that without our participation in the League of Nations and the peace treaty of Versailles, Europe will never regain a peaceful status," said Mr. Britten. "but will be the scene of from five to fifteen years in its various sections indefinitely."

"I am fully convinced that without American participation England and our allies cannot maintain a position of peace in Europe and this view is shared in practically every country in Europe."

"I am actually convinced that the Versailles treaty with all its reservations recommended by the League of Nations is a masterpiece of statesmanship. And I hope that the President by this time has been convinced by our returned peace commissioners that a treaty with reservations acceptable to Europe is better than no treaty at all. And in my judgment this is infinitely more desirable than the Knox resolution now before the Senate."

Mr. Britten's report showed that the League of Nations is the only way to bring the world to a state of peace. He said that the League of Nations is the only way to bring the world to a state of peace.

PRESIDENT SIGNS EDGE BILL TO AID IN LOANS.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Dec. 25.—Organization of a number of large foreign banking corporations for the purpose of facilitating the financing of export trade is looked for within the next few weeks, as a result of the signing of the Edge bill by President Wilson.

The bill, which was enacted after many months of effort on the part of the financiers interested in the financing of foreign trade, permits the formation of corporations with a capital of not less than \$2,000,000 to engage in foreign banking business under the supervision of the Federal Reserve Board.

UNION MINERS IN CLASH WITH EX-SERVICE MEN AT WILKESON, WASH.

(BY A. P. MONT WIRE.)
OLYMPIA (Wash.) Dec. 25.—Troops will be furnished the Wilkeson coal mines if needed, Gov. Louis F. Hart stated tonight, but it would be the Federal, and not the State, soldiers.

This, the Governor said, would first mean communicating with Lieut.-Gen. Liggett at San Francisco and cause a delay until at least tomorrow before the troops could be started for Wilkeson.

"After receiving the request from Mr. Hewitt of the Wilkeson mines," the Governor stated tonight, "I communicated with Sheriff Morris of Pierce county, who stated that he would send his chief deputy and a number of other deputies to Wilkeson in the morning, in addition to those now there. The Sheriff stated that he believed he could organize a sufficient force to maintain order."

"When I informed Mr. Hewitt of this, he seemed satisfied and unless the disturbance gets beyond control of the Sheriff's forces tomorrow, I will not request the sending out of troops."

LATER NEWS.
(BY A. P. MONT WIRE.)
Grand Opera Disbands.
BALTIMORE (MD.) Dec. 25.—The Manhattan Grand Opera Company, which was organized a few weeks ago in New York, opened here Monday night for a week's engagement and disbanded today.

Principals, members of the chorus and orchestra, expended payment of their salaries today, but when they met at the Lyric Theater they were informed that a telegram had been received from the general manager in New York that no funds were available. The singers will drive a hard bargain to rule railroad fares to their homes.

Ship Whisky by Motor.
LOUISVILLE (Ky.) Dec. 25.—Arrangements for shipping 30,000 gallons of whisky out of the United States before January 16 have been concluded by the John T. Harbo Company, distillers of Versailles, Ky., according to reports reaching here.

The whisky will be hauled to seaports in motor trucks, it was said, but the company refused to name the country to which the liquor will be sent.

Floods in France.
STRASBOURG, Dec. 25.—Great foundations are reported in Alsace. Above Strasbourg the river Ill has overflowed its banks. Traffic is interrupted in the Vosges Valley.

NANCY, Dec. 25.—Floods are assuming disastrous proportions in this district. Light and power plants in the city are out of commission and it is not likely that the newspapers will appear tomorrow.

Feeling in the East is very bitter against the whole continent of Europe.

Speaking of Texas, it would appear that the Lone Star State would soon be relieved of the responsibility of governing the world.

President Wilson seems to be about to let his brave band of Texas statesmen go back to the mainland. Through the influence of Mr. House, Dr. Wilson imported a weird collection of little-town politicians from the state-on-flag signal town of Austin, and he made them Cabinet ministers. According to all rumors, the President now "has a mad" on Col. House, and the whole State of Texas is under a cloud as a result of political games.

A mild sensation has been created by the bare knees of some of the Methodist choir young ladies who are taking part in a big religious spectacle, "The Wayfarer," now running at Madison Square Garden.

Last Sunday several prominent Baptist pastors delivered solemn sermons directed at the lack of stockpiling in the play, and they wanted the procession more covered up. As far as can be learned, the knees still remain bare for art's sake.

While we are on this painful and chilly topic, the New York dream-makers make the terrible prediction that more clothes are going to be worn north of the waistline by society ladies next season, and the hips are coming back. I did not know that hips had gone, or where; but if that fact holds any message for any aching soul, why there is hope are coming back.

The beautiful Baroness Speck von Sternberg, formerly Lillian May Langham, the Kentucky Kentucky beauty, has arrived from Germany on a mission to discover what the sentiment is at present in America toward Germany. There is not much she is able to find here calculated to cheer her. The truth is that she is going home.

Lincoln Nebraska Jurist Dies.
LINCOLN (Ne.) Dec. 25.—Samuel H. Sedgwick, for fifteen years a justice of the Nebraska Supreme Court, died suddenly here tonight from heart disease. He was a pioneer lawyer, 71 years old.

INDIA'S NEW RULE TO BE BENEVOLENT DESPOTISM.

(BY CABLE—EXCLUSIVE DISPATCH.)
LONDON, Dec. 24.—The new government for India, proclaimed yesterday by the King, is not like that of Canada and Australia, but is merely an increase of popular participation in the system of government already existing there, a sort of benevolent despotism.

The new government does not extend to the whole of India, but only to the nine provinces which already have enjoyed self-administrative government. Of these there is to be a specially designed rule.

These provinces henceforth are to be independent of the imperial government in India and its administration and finances, so far as is compatible with the responsibilities of the imperial Government to the London Parliament. There are to be "reserved subjects" which will be under the charge of the Governor and an executive council of two, one of whom will be an Indian.

"RESERVED SUBJECTS" include education, agriculture, development of industries, exercise, and various public works which will be administered by the Governor and two or more ministers, who will be elected members of the local Legislatures appointed by the Governor.

The minister must enjoy the confidence of the Legislature. He may resign if he fails to agree with the Governor, who also may discharge him. In the last resort the Governor can dissolve the Legislature (the normal life of which will be three years) and choose new ministers after a fresh election.

Of the Legislature at least 70 per cent. are to be elected mainly on territorial basis, with certain communal representation and reservation of seats.

5,000,000 ELECTORS.
Instead of the 35,000 electors of the past, there will be about 5,000,000 electors, or about 1.5 per cent. of the entire population of the nine provinces. These electors will be increased at the option of the legislatures. If, for instance, any of them admit women to the ballot.

A special board will allocate the revenues of each province, in case of a difference the imperial government may allocate the revenues at will. In the whole field of the reserved subjects the governor may himself legislate and decree. If the action of the respective legislatures does not conform to his ideas of his duty to the London Parliament.

SANTA FE MEN MAKE STRIKE THREAT.
(EXCLUSIVE DISPATCH.)
ALBUQUERQUE (N. M.) Dec. 25.—Six railroad shop-crafts numbering 600,000 men, will strike if Congress, when enacting legislation to govern the railroads when they are returned to private ownership, includes an anti-strike clause, it was asserted today in a statement issued by W. H. Patterson, secretary-treasurer of the International Machinery Union, on the Santa Fe system.

CLEVELAND, Dec. 25.—National heads of railroad unions here expressed surprise at the announcement of the government's plan to return the railroads to private ownership March 1.

Warren A. Stone, head of the Brotherhood of Locomotive Engineers, would not make any comment.

"Until I hear what Congress and the President have to say I will not discuss the matter," he said.

W. A. Lee, president of the American Railway Union, said:

SYNDICALIST SPLIT IN SPAIN

Workers Live in Luxury on Millions Contributed by Poor Working Men.

(BY CABLE AND ASSOCIATED PRESS.)
BARCELONA, Wednesday, Dec. 24.—The split in the part of the syndicalist movement in Catalonia against the government has taken form today when a manifesto in which they declare their three weeks' lockout was to be a condition of anarchy. The manifesto states that as soon as the general syndicalist organization is dissolved, the lockout will end.

MADRID, Dec. 24.—This city had its first bomb explosion of many years today when a bomb was set off in the Paseo Alberto Odujar, near the Jesuit convent. There were no casualties but some damage was done to surrounding buildings. It is believed the bomb was placed by street car strikers.

Despite large sums collected in dues during the two years of the organization's existence, according to the pamphlet, some of the workers who now are told the organization is without funds.

SORRY ENDING FOR YULETIDE ROMANCE

(EXCLUSIVE DISPATCH)
CHICAGO, Dec. 25.—The prospects of a happy Christmas wedding followed by a holiday honeymoon became ashes yesterday for Miss Evelyn Burke of Watertown, N. J., when she found that the prospective bridegroom had vanished.
Miss Burke came to Chicago to be married to Howard Johnson of Cleveland, O. He had told her to meet him at the Hotel Laramie and it was there that she went from the train.
"Mr. Johnson checked out Sunday," the clerk replied to her inquiry. "He and I were to be married Christmas Day," the young woman interrupted.
The clerk did not finish his sentence. What he had intended to say was: "He and his wife were here all last week."

REDLANDS CHRISTMAS IS VERY QUIET ONE

(LOCAL CORRESPONDENCE)
REDLANDS, Dec. 25.—A Christmas of happy family reunions was celebrated in Redlands today, a quiet day of happiness devoted to home celebrations. There was no public entertainment here today, it was felt best to have the Christmas tree party for the city last evening.
In some of the churches this morning were the Christmas services and short Christmas programs. There is no business transacted in this city on Christmas day with the exception of the postoffice, which keeps open half a day so that no one would be disappointed because Santa did not appear.

UKRAINE COOL TOWARD REDS.

Break with Soviets on Question of Landed Property.
Not Particularly Pro-German, but Hates French.
Petlura not Bolshevik, but Would Repulse Russia.

(BY CABLE—EXCLUSIVE DISPATCH)
WARSAW, Dec. 19 (Delayed).—There are certain questions that a visitor in Ukraine tries to answer. What sort of a man is Petlura, and what does he stand for?

Are the Ukrainians Bolsheviks? Is the Ukraine a living thing, or is it an artificial distinction? The correspondent spent only ten days in the Ukraine, but they were not days when men forget to be diplomats and propagandists and become just plain soldiers.

These questions smacked of impudence rather than of truth. The Ukrainians were thinking to save their skins. The soldiers were scheming already for the Ukraine to be. And so, though answers to these questions smacked of impudence rather than of truth, the Ukrainians were thinking to save their skins.

Petlura has stood for the two things on which Ukraine was founded. The first was the desire for the peasant. The first was the desire for the peasant. The first was the desire for the peasant.

Then are the Ukrainians Bolsheviks? It is likely they could not resist just now with Communism in Ukraine, for the dominant peasant there is the so-called rich peasant, who clings stubbornly to his land.

LOTS OF TURKEY AND TO SPARE ON BOWERY.

FEWEST NUMBER OF APPLICANTS FOR FREE CHRISTMAS DINNERS ON RECORD.

(BY A. P. NIGHT WIRE)
NEW YORK, Dec. 25.—Christmas dinners were being begged on the Bowery tonight. Homeless men with all their "trimmings" and mince pies failed to attract half as many hungry men as were served in former years. This was attributed to property and prohibition.

The famous Bowery mission served only 400 persons, whereas in former years it had been called to provide for at least 1500. At Hall's Restaurant Hall served 200 applicants.

The usual Christmas noon hour dinner at the Hotel Water-street Mission was postponed until tonight because of the lack of applicants. Not a single applicant appeared for the 400 pounds of turkey and many good things had been prepared. A few years ago it was not unusual for the mission to feed 1500, but tonight fewer than 800 hungry men appeared.

Outside the Bowery Christmas cheer was spread in many humble homes by organizations, institutions and individuals.

The Salvation Army furnished Christmas dinners to more than 2000 homeless men. The 500 men of the Salvation Army were entertained at a dinner at the Hotel Water-street Mission.

Several army officers were seen in the streets. The Salvation Army furnished Christmas dinners to more than 2000 homeless men. The 500 men of the Salvation Army were entertained at a dinner at the Hotel Water-street Mission.

ASK HOOVER FOR ADVICE ON HELP

Californian may Tell Congress of Europe's Need.

Belief is General that He Knows the Situation.

Glass Reluctant to Force Payment of Interest.

(EXCLUSIVE DISPATCH)
WASHINGTON, Dec. 25.—Further extensions of credit by the United States to suffering Europe aggregating \$1,800,000,000 will be considered by Congress as soon as it reassembles next month.

It is proposed to finance relief of starving Central Europe at an expense of \$800,000,000 and to fund interest loans the \$1,000,000,000 interest due in the next three years on loans to the Allies.

In connection with the questions of Central Europe the views of Herbert Hoover will be sought. Mr. Hoover is of the opinion that unless America comes to the rescue thousands of people will die of starvation this winter in Austria, Hungary, Poland and Bohemia.

Mr. Hoover expressed his views freely on the European situation at a number of dinners in Washington recently and Senator Lenroot has suggested that he be called before the Foreign Relations Committee of the Senate and permitted to enlighten Senators on the subject.

By the guests at one dinner Mr. Hoover has been quoted as asserting that the peace treaty deals too harshly with Germany because it permits Germany a little chance of rebuilding herself. The Allied exactions on Germany are an unnecessary burden, he said, and will be long time before the Germans will be prosperous again. His opinion was that the Allies should be more lenient to Germany.

Mr. Hoover also is quoted as opposing the assumption by the United States of a mandate for Armenia. He pictured Armenia as a poor-house surrounded by solvent nations. He offered to the contiguous cotton fields of Mesopotamia, the copper mines of Syria and the oil fields of the Black Sea coast, all of which have been annexed by Great Britain and France while the Armenia poor-house was assigned to the care of the United States.

In regard to the relief of starving Central Europe Mr. Hoover proposed that the funds of the Grain Corporation, aggregating \$100,000,000, be loaned to the Allies. He would have this fund advanced as a nominal extension of credit for the purchase of food for the starving people of Europe.

Berkeley to Arrive Today to Meet Long Beach Tomorrow for State Prep Championship

LITTLE KNOWN OF BERKELEY.

Hard to Get Line on 'Em for Big Prep Game.

Will Arrive Here Today for Tomorrow's Scrap.

Long Beach in Fine Fettle, Ready for Invaders.

BY PAUL LOWRY.

Berkeley State's high powered athletes, football champions of Northern California, will arrive here this morning for their scheduled game for the State prep title with Long Beach tomorrow afternoon.

There have been conflicting reports as to the numerical strength of the party. One dispatch said the university city representatives were leading twenty-five strong, another that only eighteen players were included. That, however, is of minor importance. Only eleven men can play the game at one time—unless they follow the Stanford policy and insert an extra player or two when the going gets rough.

MAY BE METHOD.

There may be method in the Berkeley plan of bringing twenty-five gridironers if such proves to be the case. The Tournament of Roses Association has invited the northern team to remain over and view the Harvard-Oregon conflict as guests of that body—a privilege that about 15,000 persons in Southern California would give an eye tooth for.

The way things shape up now many persons will have to be foot-ball players if they want to view the East versus West classic. Either that or hire airplanes. But there is to be no dearth of tickets to the Berkeley-Long Beach fracas. The pasteborders to this great little struggle will go on sale this morning in Pasadena and in this city at the local sporting goods houses.

EXPECT BIG CROWD.

A crowd of at least 10,000 persons is expected to witness the prep title battle. Long Beach alone has promised to send up 10,000 persons. It would not be surprising to have the attendance run around the 15,000 mark. Southern California, the football focus of the entire country for the next two weeks, is mad, as it never was before, over the gridiron game.

Berkeley will take the field to-

Dec. 28.—William Klepper, president of the Seattle club in the Pacific Coast Baseball League, expects to arrive for California today to attend a meeting of the league's board of directors, to be held in San Francisco. Announcement of the names of several new players is expected to be made on his return to Seattle early in January.

GERMAN STEEL KINGS SENTENCED TO EXILE.

ROCKKLING, MILLAGERS OF FRENCH FACTORIES, MUST FIRST GO TO PRISON.

[BY CABLE AND ASSOCIATED PRESS.]
AMSTERDAM, Wednesday, Dec. 24.—A court-martial has sentenced the German officer, Robert Rockkling, administrator of mines at Karlsruhe, to ten years' confinement, fifteen years of exile and a fine of 10,000,000 francs upon his conviction of a charge of organizing the pillage of factories in Eastern France. It was testified at his trial that he collected machinery and other material from the factories and blew it up in November, 1918. His brother, Herman and Ludwig, were given similar sentences by default.

The Rockklings brothers are known as German steel kings. Herman Rockkling, president of a steel association, was at Treves as a member of the German armistice commission, for which reason he was not arrested. The other brother, Ludwig, went to Versailles as a member of the peace delegation, but consequently, was covered by diplomatic immunity.

The evidence presented by the prosecution was to show that the brothers had systematically destroyed the French metal-working plants at Briey, Meuseville, Longwy and other places, transporting with them in two years time millions of tons of material to their factories in Germany.

Robert Rockkling, in his defense, pleaded that he had acted by order of the German government, and that his action was on his personal initiative.

California Woman Gained 23 Pounds.
So Run-Down She Fainted Several Times in Street.

Friends Comment On How Well She Looks Now.

"I'm Living Evidence of the Powers of Tanlac," She Says.

"Only my folks knew the awful condition I was in for I was so bad off I was just ready to die when I began taking Tanlac, but now I have been restored to complete health and have gained 23 pounds," said Mrs. Olive M. Candage of 425 Kalma street, San Diego, Cal., the other day. "About a year ago my health gave way," continued Mrs. Candage, "and I began to lose weight and strength rapidly, and in the course of several months I actually fell off 85 pounds and was hardly more than a frame. My blood was in bad condition, and I was so terribly nervous I felt just like setting out and screaming at the top of my voice. Whenever I went out of the house, someone always watched me, for fear I could not get back, and several times I fainted and fell down on the street. My cheeks were sunken and hollow, I was as pale as a ghost and my back ached from sheer weakness. I had no appetite at all and for days I went without touching a thing but coffee, in fact, I lived on coffee. When I went to bed I could not stay there and I can hardly understand how I managed to hold it as long as I did. We spent all kinds of money, I took all sorts of medicine and treatment, including serum injections, but it was all to no avail, for I grew worse and worse."

"A friend of mine in La Jolla, who had tried Tanlac, recommended it to me and I began taking it. My improvement at first was so slight as to hardly be noticeable, but I realized that was because of the extremely low state of health I was in. So I continued to take it until now, today you see me the best living evidence of the power of Tanlac, the wonderful power of Tanlac, in San Diego. I am in the best of health, can eat anything I please and I sleep as sound as a child all night long. My nerves are steady, my blood is in splendid condition, and as I said, I have gained twenty-three of my lost weight back already. Everywhere I go my friends are all remarking about how well I look and I always tell them I owe everything to Tanlac. This is the first public statement I have ever made, but I feel so fine that I know it is my duty to tell the world what Tanlac can do."

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Owl Drug Company.—[Advertisement.]

IN DESPAIR, UKRAINE APPEALS TO AMERICA.

COMPLAINS OF BRITISH BLOCKADE, FRENCH HOSTILITY AND DENIKINE.

[BY CABLE—EXCLUSIVE DISPATCH.]
WARSAW, Dec. 25.—(Delayed.) In an interview given in Kamienetz-Podolski, T. Masappa, president of the Ukrainian council of ministers, predicted that once the Ukraine had fallen, Denikine would cope inflexibly with peasant uprisings and be alone against Bolshevik attacks, the Bolsheviks occupying all South Russia for the third time.

Masappa is a little man with the air of a hard-worked student. While he talked in the Premier's Cabinet, two wax candles flickered in the door, for only two days a week did the capital of Ukraine have electricity.

Bitterly Masappa flayed Great Britain, whom he declared was the author of the blockade. The old imperial factories, he said, are in Bolshevik hands. Ukraine, beset by Denikine, must look abroad for supplies. On the Polish frontier, he said, caravans of supplies were held up by the Entente's order, and Rumania, though well disposed, is likewise forced to hold off through England's threat of blockade.

The motive for French and British hostility to Ukraine Masappa declared to be Russian money sprinkled throughout aid Europe.

"In the hour of her agony," continued Masappa, "Ukraine looks to United States for help. First of all, she asks America to recognize her independence of Russia, in accordance with Wilson's fourteen points. We do not expect recognition from England and France. But the American people, we feel, must understand us, a people seeking freedom."

"America we know for our friend, because he has already given us five years' credit on \$12,500,000 worth of clothing and ammunition for our army."

To be sure, the shipments will likely not reach us because of the blockade, but we must understand us, a people seeking freedom."

BY THE STAFF.

Now is the time to make a special census in Los Angeles.

In this day and age there is a difference between distinction and notoriety.

Somewhere is losing control of the United States. The way may be long, but it is being run.

What we need in this country is more baby carriages and less war.

Southern California is a healthy place. Seventy per cent of the widows in Los Angeles are of the grass variety.

Secretary Baker admits that the reorganization of the War Department is imperatively needed. A right, Newt, let us begin at the beginning.

George Clemenceau, Premier of France, is said to be in the city. He is yet in the heyday of his life. He is but 50 years of age.

What is the objection to a American cable to South America countries? Must we continue to depend on England for our communications with our southern neighbors?

In the present tense situation of this country the public has as much right to fight for its life, its property and its honor as it has to be supreme or not at all. It can be allowed to become master of the whole—to have the millions of money and exact tribute or will. There can be no compromise or capitulation.

The pending budget bill ought to receive the early attention of Congress, but so long as Congress sits it will with any budget the house will be the work of Congress.

Not of those who prepare it, but of those who are freed from responsibility when Congress takes it over. It is idle to expect good budgets if it is possible to punish members for bad ones.

The widow of Edward G. Robinson, the only Scandinavian actor who ever became great, has been compelled to give up her home, no longer having means to support it. Grief made the widow's life in not living in this so-called writing a few moving pictures more. His widow might have been in luxury all her life. What a loss to the world of art.

Secretary Daniels says that despite of rapid demobilization of personnel since the armistice, the navy is ready to meet any emergency. Now Mr. Daniels is not a sailor. He knows that the navy is ready for any emergency.

Why is it not ready? It is not ready because the number of battleships both coasted that have been reduced to reduced commissions because of the lack of men.

Several colleges have been announced a course in housework, where the girls are taught sweeping, dusting, cleaning and so on after the family market basket. They will do the marketing and also cook the meals and arrange it so that the family get will cover necessary expenses. It is used to be that all such work was taught in the American home, but that was long time ago.

Some men really cannot carry out their philanthropic ideas. Their friends, the sugar refiners, the instance. They had no sugar to speak of at the old figure, but as soon as the price began to rise they abandoned their humanitarian efforts to make the world a better place and they might as well release surplus stocks to the dear people. Doesn't it beat all how the world is run? Some of the people are just tormented.

STAY IN THE FIGHT.

You've heard of that house by the side of the road.

Where that whistling noise comes from.

He says he prefers his poor home to a palace of granite or marble.

To a palace of granite or marble.

"Because," he says (and his wife is good).

"I save many men who would be discouraged and help like a brother should."

As the race of men go by.

This man has his ideal—his love.

He helps all he can, we will appear.

But what of the brothers who have appeared?

Who have fallen a mile or two away?

Aye, what of the souls in the great caravan.

Who mean death that mean death and load.

Yet their motto is not to be in his house, by the side of the road!

No man can be doing his best in this life.

If he lives in a house all alone.

No man can be helping to conquer the strife.

If he lives like a hermit and does not.

No man can be useful and happy and true.

If he waits for a brother to help him.

No man can complete all the work he should do.

If he just sits around for a while.

So, give me the man who is in the fight.

And always about in the fight.

Three cheers for the man who helps and his light.

Who goes MORE than a mile or two the way!

God give us the men who will help in the strife.

Who will help with the burden and load.

It's better than selfishly trying to live in a house by the side of the road.

Sorry Christmas for Former So'dier.

Mortimer N. Allyn and How He Was Shot.

MESSANGER IS NEAR DEATH.

(Continued from First Page.)

He visited the jail, yesterday, but was told that Heller was being held on orders of Dist. Atty. Woolwine and that nothing could be done to secure his release.

"I'll doll up and be home early," was the parting words of Allyn to friends as he drove away from his temporary residence, 2752 Gessmuth avenue, Wednesday morning. He was in high spirits and looking forward to trimming the family Christmas tree.

Last evening he lay at the California Hospital in what is feared is a dying condition. The bullet from the night watchman's revolver entering the back near the spinal cord, had lodged in the anterior wall of the abdomen. After it was extracted, an X-ray photograph showed the course of the bullet. It was found that the bullet had made eighteen punctures in the intestine, and no hope was held out to Mr. Allyn's friends of his recovery.

In a lucid interval, Mr. Allyn stated to his intimate friends, who alone were permitted to visit him yesterday, that upon leaving the Christmas package at Mr. Doherty's home, his automobile skidded on the pavement and bumped into the closed gate. The gate flew open and he drove through. He heard

a shout, followed by the report of a gun, and thoroughly alarmed, he says, he speeded up until a bullet laid him low.

His companion on the trip, C. H. Marteen, drove him to a drug store at Twenty-third street and Grand avenue. Later Mr. Allyn was taken to the Receiving Hospital and subsequently to the California Hospital. It was stated yesterday that his expenses at the hospital are being paid by the Hasty Messenger Company, by whom he was employed.

Mr. Allyn is the son of a retired physician, now residing near San Francisco. His mother is dead. Dr. Allyn is a crack shot and has competed in many amateur trap shooting events. His favorite pastime is to shoot an apple off a friend's head. His father was a champion shot, and his guns are said to have been loaned out for exhibition purposes.

Young Allyn is also a hunter. He had been planning to leave the messenger service and go into the mountains to live the life of a hunter. His brother, who has been in the Regular Army for seven years and is now at Camp Kearny, was notified of Mortimer's impending death and arrived at 2752 Gessmuth avenue last evening. He is also an athlete, playing on the army football team in France. Mortimer also served in the army along the border.

Christmas mail. The population census is 1,700,000.

To help the Census Editor in his arduous labor, it is asked that all coupons be neatly trimmed around the border before they are sent in and that all entrants carefully observe the rules of the contest, which are repeated here for reference:

For the best guesses as to what the population of Los Angeles will be when announced by the 1920 census, The Times will pay a first prize of \$50, a second prize of \$25 and a third prize of \$10. In the case of a tie, the money will be evenly divided.

Guesses will be accepted from everybody except employees of The Times and persons connected with the taking of the census.

All guesses must be submitted on the coupon form printed herewith and which will appear in The Times every day until January 1.

The form must be filled out in ink; the contestant's name and address must be written legibly; the figure representing the population total must not be scratched, erased or altered.

No guess will be accepted unless it is in the hands of the Census Contest Editor before midnight of December 31, 1919.

No contestant will be allowed more than one guess.

Contest blanks, when filled out are to be mailed to the Census Contest Editor of The Times, First street and Broadway, Los Angeles, Cal.

Each completed blank, when received, will be filed and kept under lock and key until the census figures are officially announced, next June. Names of the contest winners will be published, and the prizes paid at that time.

The prize optimist so far noted also got in on the Census Editor's

COMPROMISE ON PARKING LOOMS.

Opponents of Too Harsh Law See Hope of Just Plan.

Split in Council Points to Equitable Adjustment.

Evil in Original Ordinance is Again Pointed Out.

The announcement that a substitute ordinance, reducing the bounds of the proposed no-parking area, will soon be presented to the City Council in lieu of the measure now before the body, yesterday led opponents of the original plan to hope the rift in the Council's front means that just and wise automobile regulation will ultimately result. It is a cheerful sign, say those aligned against the proposed ordinance, that too harsh and ill-considered legislation will not be jammed through to the detriment of automobile owners in particular, and of the community in general.

At the same time the following statements assent the original and still unaltered no-parking plan were made by representative men in the motor-car business:

F. S. ALBERTSON, Alhambra Motor Car Company: "The proposed ordinance would work the greatest imaginable injustice to the motoring public—and the term motoring public means the public today. It would harm the merchants and the motorists alike. The motor car means rapid transportation for the individual—it is conceded to be one of the greatest conveniences of modern life, and it is unthinkable to virtually bar it from the business district of the city. It is true enough that the traffic situation is a serious problem in Los Angeles today, but why try the most radical remedy imaginable, first? It is as unworkable as a law to cure a corn. There are many improvements we can make in our existing ordinance without adopting measures that will work incalculable inconvenience and harm to every motorist and merchant in Los Angeles. Our streets here are not nearly as narrow as in some of the eastern cities. Our traffic situation is not so hopeless as to demand any such step as this."

J. E. SHOWN, manager for Don Lee: "Without any exception, this no-parking idea is the most absurd proposition ever suggested anywhere. Street cars now occupy every street; why not remove them from one of the downtown streets, preferably Broadway, if more room is desired? There are many plans that could be used to relieve congestion, such as limiting the parking space to one side of the street only, or setting aside cross streets on which there are no car lines for parking exclusive of taxicabs. The city prohibits the use of motor cars and forces us to use horses and buggies?"

F. E. ROBERT, Pacific Coast Manager, Simplicity Wheel Company: "This ordinance, if put into effect, will most certainly injure business within the area proposed and will beyond question at least partially destroy the usefulness here of the automobile, which should be given credit for a great deal of our progress. Attempts to achieve perfection in traffic conditions here with our present artery system are idle and futile, but improvements are possible without resort to such drastic measures as are proposed in this ordinance. It would be provincial to state that other cities have not been confronted with traffic problems nearly if not as great as our own, and those cities have at least partially solved their difficulties without resorting to ordinances that blocked the wheels of progress. There are definitely known and proved methods of gaining this result, and, while revolutionary as compared with our present system, it seems that they should at least be given consideration or trial before business is generally interfered with. This ordinance threatens to deliver a blow that will question our modernity."

REJECTS PETITION.

City Clerk's Action Causes How with Taxicab Owners.

M. H. Glascock, secretary of the Auto Livery Owners' Association, and Robert Steele on Wednesday afternoon presented to the City Clerk for filing a new referendum petition on the no-parking ordinance. City Clerk Wilde refused to accept the document for filing without the advice of the City Attorney, and Glascock and Steele state that on behalf of the association they represent they will appeal to the court for a writ of mandamus to compel the filing of the petition.

The petition contains 12,127 signatures, and is composed of 177 sections. In order to compel the Council to take action thereon, it must be found to have at least 11,617 signatures of qualified voters, or 15 per cent. of the vote at the last municipal election.

TO CHECK FLOODS.

Plan to Handle Storm Waters in Street Goes to Council.

The Board of Public Works today will transmit to the City Council petition from property owners on Fifty-sixth street, between Hoover street and Vermont avenue, protesting against conditions there which they say are due largely to the city diverting storm water to this street by grading other streets.

The board states that the claim is well substantiated, and it will present a plan for relief, which will cost approximately \$2657. This is only a temporary measure, however, says the board, and it declares that the paving of Fifty-sixth street will afford the only permanent relief.

HELD ON DRUG CHARGE.

Earl R. Gredner, arrested by Special Agent H. J. Brooks of the U. S. Bureau of Revenue Department, was held in the County Jail yesterday on a charge of violating the Harrison narcotic act. He is said to have had in his possession an ounce of opium and some morphine and cocaine.

TO CHARGE CUSTOMERS: All purchases on and after December 23 are charged to statement rendered February 1, 1920.

THEOSOPHISTS GREET EDITOR FROM INDIA.

RAHMAN PESTONJI WADIA TO LECTURE AT BLANCHARD HALL THIS EVENING.

Rahman Pestonji Wadia of Adyar, Madras, Presidency Bombay, India, an editor and publisher of various magazines and numerous books on philosophy and religion, was welcomed yesterday by about 450 Theosophists at the Kretzschmar Institute of Theosophy. Mr. Wadia has just come from Washington, D. C., where he went on official business at the request of Samuel Montagu, the British Secretary of State for India. At 3:15 p.m. today Mr. Wadia will lecture at Blanchard Hall on "India's Message to the World," a subject on which he has recently spoken before the city clubs of Philadelphia and Baltimore. He will give his views of the part India will play in the world in the future. From a business viewpoint, he sees no reason why American ships should not run directly from Los Angeles to India, where American firms, he says, would find waiting for them a vast commercial field that was exploited by German and Australian firms before the war. Mr. Wadia will be here about a fortnight and then return to England, before leaving for India.

(SPECIAL CORRESPONDENCE.) NEW YORK, Dec. 11.—In a surprise court proceeding yesterday to remove John Dunston as administrator of the estate of his former partner, Timothy Hurley, m "Jack's Restaurant, Mrs. Jennie Hurley submitted an affidavit stating that Hurley thought he had two sons, but these sons were only imaginary. Hurley died in December, 1917, leaving an estate of about \$75,000. He named his two "natural sons" as imaginary legacies. The residue of the estate is about \$40,000. Hurley's sister, Mary Minahan, is applying for the revocation of the letters granted to Dunston as temporary administrator, offered Mrs. Hurley's claim. In this sworn statement Mrs. Hurley said she pretended to Hurley that two sons had been born to her and that he was their father. She told him that the children were on Staten Island. Until Hurley's death, she said, she kept up this deception.

Carol Singers Welcome Advent of Christmas Day.

(LOCAL CORRESPONDENCE.) PASADENA, Dec. 25.—Pasadena spent a delightful Christmas, tinged with a discussion of New Year's football possibilities. Two of the great Pasadena tourist hotels, the Maryland and the Green, are filled with eastern visitors, football players and other guests. Two more, the Huntington and the Raymond, will open Saturday.

The Oregon football squad is at the Maryland, and the Long Beach High School squad is at the Green. The city is on the qui vive over the arrival tomorrow of the Harvard squad, which will be at the Raymond, and the Berkeley High School squad, which will be at the Green. Long Beach and Berkeley high schools play football here Saturday, under auspices of the Tournament of Roses.

Beautiful Christmas masses were said at St. Andrew's and St. Elizabeth's Catholic churches this morning, and Christmas services and music and holy communion were celebrated at All Saints' and St. Mark's Episcopal churches. Many of the evangelical Protestant churches also held services.

Orphans of Pasadena and South Pasadena, together with other poor children of the community, were entertained at a Christmas tree party at Cline's Theater, today, by the Pasadena Lodge of Elks, No. 672. The entertainment is an annual affair with the Elks. Harry Cheeseman, Exalted Ruler of the lodge, made a brief speech to the 100 kiddies, introducing Santa Claus, who in private life is Eugene F. "NO POLITICS," SAYS JOHN WILLIS BAER.

(LOCAL CORRESPONDENCE.) PASADENA, Dec. 25.—"No irreverently no," said Dr. John Willis Baer, Pasadena banker, moderator of the Presbyterian church in North America and former president of Occidental College, when a committee of citizens called on him yesterday to urge him to run for Congress in the Ninth District.

Two years ago a concerted effort was made by Republicans and Democrats to get Dr. Baer to run, but he would not. He is equally emphatic that he is not a candidate this year. "I hope there will be no further mention of my name in connection with the matter," said Dr. Baer. "My job is at home and I like my job."

The large package mail was exclusive of the Pasadena post office. Joseph P. Conklin, secretary of the Pasadena post of the American Legion and manager of the Soldiers' and Sailors' Club here, has resigned his position, on account of ill health. He will remove to Sierra Madre for the purpose of recuperating his health.

CAROLS ARE SUNG. The dawn of Christmas was heralded here by the singing of Christmas carols. Groups of T.W.C.A. girls strolled through various sections of the city at 4 o'clock, singing carols. They pursued definitely fixed routes and halted at the windows of shut-ins in conformity with old-established custom the vested choir of All Saints' Episcopal Church sang carols at the Maryland and Green hotels this morning.

It is said that the rare fish comes south of Ventura very infrequently. Wallace pulled his six-pound prize in at Long Wharf.

PEARCE'S LOYALTY PLEA DEVELOPS TWIST.

Because Giles Otis Pearce, the Bartlett veteran who is suing Lieut. Col. Theodore Roosevelt, Jr., and other heirs of the estate of the late Theodore Roosevelt to recover about \$5000 in punitive and actual damages, pleaded poverty, it was necessary, it developed yesterday, for U. S. District Judge Bledsoe, as the senior judge on the local Federal bench, to make the order transferring the case to the U. S. Supreme Court. The appeal of Pearce was allowed by Judge Trippett, but due to the twist in the law, Judge Bledsoe had to grant the motion in the case.
